AHMED OTHMAN

ELECTRICAL & INDUSTRIAL AUTOMATION ENGINEER

oa.ahmed.othman@gmail.com , +216 99 987 391 , Tunis, Tunisia , linkedin.com/in/othmen-ahmed

SUMMARY

Electrical and industrial automation engineer with 5 years of experience in the cementindustry, specializing in DCS/PLC systems (Siemens PCS7, TIA Portal) and HV/MV/LVelectrical maintenance. Proven record in fault diagnosis, reliability improvement (8D,PDCA), CAPEX projects, commissioning, and technical leadership of electrical teams. Fluent in English and French (C1). Seeking Automation / Industrial IT engineering roles in Europe or Canada, open to relocation.

EXPERIENCE

Industrial IT & Electrical Automation Engineer

03/2025 - Présent

SINOMA Cement Co., Ltd — **Tunis, Tunisia**

- Led electrical maintenance across HV/MV/LV systems for a team of 18 technicians; raised equipment availability from 70% to 96% and improved MTBF (Mean TimeBetween Failures) by 15% using 8D problem solving and PDCA cycles.
- Implemented and maintained Siemens PCS7 and TIA Portal systems, applying RootCause Analysis and PDCA to optimize system performance.
- Managed CAPEX projects replacing outdated equipment installations, raising cement mills reliability from 70% to 96% and generating significant cost savings.
- Project Lead, 5000 kVA medium-voltage transformer commissioning (07/2026): Prepared civil works and mechanical support structure; followed manufacturing and validated factory tests; configured new protection relays and tested all transformerand line protections; ensured compliance with Tunisian regulations.
- Wrote and executed electrical maintenance work procedures to improve equipmentreliability and minimize downtime.

Industrial Automation Engineer

02/2022 - 03/2025

Votorantim Cimentos — **Tunis, Tunisia**

- Led full PCS7 system audits covering 14 S7-400 stations and 60 distributed controlcabinets, identifying maintenance and reliability improvement opportunities.
- Implemented a spare-parts management strategy that achieved 100% equipment availability and reduced the maintenance budget by 5% (budget: 1.2 M TND, approx. 360 K Euro).
- Used PRONETA for Siemens architecture scans and nmap for network probing inindustrial network testing campaigns, sustaining near-100% network availability.

EDUCATION

ENISo 09/2017 - 09/2021

Engineering Degree (Diplôme d'Ingénieur) in Mechatronics

École Nationale d'Ingénieurs de Sousse (ENISo), Tunisia

PROJECTS

Commissioning of 5000 KVA Medium voltage transformer 07/2026

Project Lead

- Prepared the civil works and mechanical support structure for the transformer
- Followed the transformer through all its manufacturing steps and validated its tests
- Prepared new protection relays and tested all types of protections (Transformer and line protections)
- Ensured the compliance of the new installation with the requirement of the tunisian law.

New Limestone Crusher Commissioning 12/2023

Engineer

- Programmed the crushing process and automation logic in PCS7; developed andvalidated electrical and process interlocks per P&ID diagrams..
- Performed FAT/SAT testing and supported maintenance teams through handover,safeguarding equipment integrity and production continuity.

ABB LIMS Integration with DCS 12/2022

Engineer

- Integrated the ABB Laboratory Information Management System (LIMS) with the DCSfor real-time quality data; configured communication interfaces and validated end-to-end data flows.
- Improved process control and operational decision-making through better datavisibility.

ABB Ability Expert Optimizer for Cement 11/2022

Engineer

- Developed switching logic, control loops and process-optimization strategies;simulated and validated operating scenarios before on-site commissioning.
- Coordinated with process, automation and maintenance teams for seamless DCSintegration.

SKILLS

Technical Skills: `STEP 7` `TIA Portal V20` `PCS7 V9` `CFC` `SFC` `WinCC Advanced V6` `OPC DA` `OPC UA` `Profibus` `Profinet` `EtherNet/IP` `MS SQL Server` `MySQL` `JavaScript` `Node.js` `Java` `Python` `RESTful APIs` `React.js` `Git` `MySQL`

Languages: `English (C1)` `French (C1)` `German (A1)`

Certifications: `PMP` `REACT & NODE JS` `ABB Ability Expert optimizer` `Cisco Certified Network Associate (CCNA)` `TOEIC (940)`
